

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

The New York times index

STANFORD UNIVERSITY LIBRARY

Among the Nations

History as it is being made and lived through is recorded month by month in *Current History Magazine*. Through regular reading, it is possible to follow the progression or retrogression of each individual country in its status among the nations of the earth.

Not only are the affairs of the great powers—of political, geographic, commercial and scientific significance—dealt with, but the small countries and principalities are reviewed as well; for today's small nation may be an important factor in the molding of tomorrow's history.

*Illustrated with portraits,
photographs and cartoons*

Watching the World Pass By

To turn the pages of *Mid-Week Pictorial* is to see the outstanding features of recent happenings pass in review. Not only are the important occurrences in the capitals of America and the countries on the other side of the globe reproduced in beautiful rotogravure photographs, but interesting or unusual activities in small and remote places, far from the beaten paths of commerce and travel, are frequently portrayed.

Recent issues contained pictures from the following countries :

United States
Ireland
Panama Canal Zone
Cuba
England
Germany
Peru
India

France
Palestine
Chile
Hawaii
Holland
Canada
Japan
Russia

Libraries and Institutions keeping files of THE NEW YORK TIMES for general reference, may have their names added to the above list by notifying THE NEW YORK TIMES INDEX, Times Square, New York City.

The New York Times Index

Notice to Subscribers

Consult the last edition of The New York Times in connection with The Index, as the publication is compiled from that edition.

Two or more editions of The Times are published each day, in which there are slight variations. The last or city edition is indicated by three or more stars (* * *) on the line between the number of the issue and the date at the top of the page.

The last edition will be substituted on notification if a subscriber receives an early edition.

The name of any institution or person keeping a file of The New York Times will, upon request, be added to the list printed in The Index.

Complete Sets Available

The New York Times Index

From January, 1913

1913—Covering the Balkan War, China Rebellion, the Mexican Rebellion, and other events in the United States and abroad.

1914-1918—A chronological record of the great World War and momentous happenings in all countries.

1919-1921—League of Nations, tariff and taxation, prohibition, changes in National Administration, reconstruction, Disarmament Conference, aviation.

1922—Irish question, unrest in India, independence of Egypt, ratification of treaties, amateur radio activity, Genoa Conference, Election Campaigns, the latest activities in science, politics and business, besides thousands of subjects and biographies that find their way into the newspaper.

The Index is indispensable for quick reference to dates and facts.

Bound in cloth, \$8.00 a year.

How to Use the Index

The Index is compiled from the Last Edition of The Times.

In each entry the date is given, then the number of the page, followed by a colon and the number of the column. The columns are understood to be numbered 1 to 8, from left to right. Mon, Ag 14, 1:8 refers to the eighth column of the first page of the issue of THE TIMES of August 14. Sections of the Sunday edition other than the first, or news section, are indicated by Roman numerals.

Notices of individuals and corporations, if not found under their names, are tabulated as statistics, under general headings, such as ACCIDENTS, BUSINESS TROUBLES, SUICIDES, Etc.

ART COMPETITIONS, EXHIBITS, SALES, Etc.—Entered under ART, with cross-references from Associations and, in cases of large personal collections, cross-references from the names of the owners.

BOOK REVIEWS—Entered under the general heading BOOKS—Reviews, except where several books on the same subject are given extensive reviews, in which case an entry is made also under the subject itself. Entries are made under the author's name when the book is the subject of a special article in the Sunday Magazine.

BIBLIOGRAPHIES—Entered under the subject, as EUROPEAN War—Bibliography.

DEATHS—Entered under personal names.

A tabulated list of subheads is given under subjects occupying considerable space, immediately preceding the actual indexing of the topic. This will aid in determining more quickly under which subhead the desired material may be found.

Date following a cross-reference indicates date under main heading on which the entry appears.

An Encyclopedia of the World War First Payment \$6.66

THE New York Times War Volumes, which form a complete and accurate record of the great war, may be obtained in cloth binding for an initial payment of \$6.66 and payments of \$5.00 a month for twelve months thereafter—a total cost of \$66.66. The full set of twenty volumes will be delivered upon receipt of the first payment, carriage charges prepaid within a radius of 50 miles of New York City.

This history was compiled from the outset of the war and covers the struggle month by month. It is of particular value to the student of contemporary history and of interest to every man and woman who wishes to know the facts regarding the mighty conflict which overthrew empires and changed the destiny of nations. The richest literature produced by the most eminent publicists in the world during the war is also included.

Each volume is indexed, the twentieth volume containing a comprehensive cumulative index. The history is divided into monthly chapters and each volume covers a three months' period of the war.

Graphic, brilliant narratives of epic battles and historic campaigns

1,000 ETCHINGS
of interesting scenes and significant
happenings

12,000 PAGES
Each volume contains 600 pages—
text and pictures

1,000 CARTOONS
Dealing with big national and international subjects

Many of the illustrations are printed by the beautiful rotogravure process—scores of comprehensive maps, charts, drawings, portraits and photographs.

Descriptive booklet on application.

For Business Men

Experts on current economics contribute to The Annalist each week articles on financial and commercial developments throughout the world.

The purpose of The Annalist is to interpret the important news of the day for the benefit of business leaders. Not an Act of Congress, but the potentialities of that Act, form the substance of Annalist comment. Not a coal or a rail strike, but the possibilities of these events in their relation to the welfare of industry and the comfort of the nation, find publication in The Annalist.

Average prices of leading bonds and stocks, food cost of living and Federal Reserve gold holdings are indicated in charts.

The Open Security Market consists of advertisements of reputable brokers quoting prices on unlisted municipal, railroad and other securities.
